1. General provisions

Article 1.1 Applicability of the Regulations

1. These Regulations apply to anyone enrolled for the programme, irrespective of the academic year in which the student was first enrolled for the programme.

Advice OLC, approval FGV (9.38 sub b)

2. These Regulations enter into force with effect from 1 September 2019

Advice OLC, approval FGV (9.38 sub b)

3. An amendment to the Teaching and Examination Regulations is only permitted to concern an academic year already in progress if this does not demonstrably damage the interests of students.

Advice OLC, approval FGV (9.38 sub b)

Article 1.2 Definitions

The following definitions are used in these Regulations (in alphabetical order):

a. academic year: the period beginning on 1 September and ending on 31 August of the following calendar year;

b. CvB: the Executive Board of Vrije Universiteit Amsterdam.

c. EC (European Credit): an EC credit with a workload of 28 hours of study;

d. educational component: a unit of study of the programme within the meaning of the WHW;

e. examination: the final examination of the Master’s programme;

f. FGV: Faculty joint assembly – assembly of the faculty student council and faculty staff council;

g. interim examination: an assessment of the student’s knowledge, understanding and skills relating to a course component. The assessment is expressed in terms of a final mark. An interim examination may consist of one or more partial examinations. A resit always covers the same material as the original interim examination;

h. joint degree: a degree awarded by an institution together with one or more institutions in the Netherlands or abroad, after the student has completed a study programme (a degree programme, a major or a specific curriculum within a degree programme) for which the collaborating institutions are jointly responsible;

i. OLC: programme committee;

j. period: a part of a semester;

k. practical exercise: the participation in a practical training or other educational learning activity, aimed at acquiring certain (academic) skills. Examples of practical exercises are:
   o researching and writing a thesis or dissertation
   o carrying out a research assignment
   o taking part in fieldwork or an excursion
   o taking part in another educational learning activity aimed at acquiring specific skills, or
   o participating in and completing a work placement;

l. programme: the totality and cohesion of the course components, teaching activities/methods, contact hours, testing and examination methods and recommended literature;

m. SAP/SLM: the student information system (Student Lifecycle Management);

n. semester: the first (September - January) or second half (February - August) of an
academic year;
o. study guide: the guide for the study programme that provides further details of the
courses, provisions and other information specific to that programme. The
Study Guide is available electronically at:
https://www.vu.nl/en/study-guide/;
p. subject see 'educational component';
q. thesis: a component comprising research into the literature and/or contributing to
scientific research, always resulting in a written report;
r. university: Vrije Universiteit Amsterdam;
s. WHW: the Dutch Higher Education and Research Act (Wet op het Hoger Onderwijs
en Wetenschappelijk Onderzoek);
t. workload: the workload of the unit of study to which an interim examination applies,
expressed in terms of credits = EC credits (ECTS = European Credit and
Transfer Accumulation System). The workload for 1 year (1,680 hours) is 60
EC credits.
u. essay exam a writing assignment that is the interim examination or partial examination
of an educational component.
The other terms have the meanings ascribed to them by the WHW.

Ordinance CvB

Article 3.2 Type of examination

<table>
<thead>
<tr>
<th>Paragraph</th>
<th>Description</th>
</tr>
</thead>
</table>
| 1.        | At the student’s request, the Examinations Board may permit a different form of interim
examination than that stipulated in the course catalogue. If applicable, more detailed
regulations on this are included in the Rules and Guidelines for the Examinations Board. |
| 2.        | If an educational component is no longer offered in the academic year following its
termination, at least one opportunity will be provided to sit the interim examination(s) or
parts thereof and a transitional arrangement will be included in the programme-specific
section for the subsequent academic year. |

Advice OLC, Approval FGV (7.13 j)
### Article 3.3 Oral interim examinations

1. An oral assessment is public unless the Examinations Board on request determines otherwise.  

   | Advice OLC; approval FGV (7.13 l and n) |

### Article 3.4 Determining and announcing results

1. The examiner determines the result of a written interim examination as soon as possible, but at the latest within ten working days. By way of departure from that stipulated in the first clause, the marking deadline for theses and final assignments is no longer than twenty working days. The examiner will then immediately ensure that the marks are registered and also ensures that the student is immediately notified of the mark, taking due account of the applicable confidentiality standards.  

   | Ordinance CvB |

2. The examiner determines the result (i.e. mark) of an oral examination as soon as possible, but at the latest within ten working days after the examination has finished and informs the student accordingly. The third clause of the first paragraph applies.  

   | Advice OLC; approval FGV (7.13 o) |

3. In the case of alternative forms of oral or written examinations, the Examinations Board determines in advance how and by what deadline the student will be informed of the results.  

   | Advice OLC; approval FGV (7.13 o) |

4. A student can submit a request for reassessment to the examiner. A request for reassessment does not affect the time period for lodging an appeal.  

   | Advice OLC; approval FGV (9.38 sub b) |

### Article 3.5 Examination opportunities

1. a. Per academic year, two opportunities to take examinations per educational component will be offered.  
   b. The options for retaking practical components, work placements and theses are detailed in the relevant work placement manual, teaching regulations or graduation regulations.  

   | Ordinance CvB |

2. The most recent mark will apply in the event of a resit. A retake is allowed for both passed and failed units of study. A retake is not allowed for essay exams passed by the student, as stated in the Rules and Guidelines of the Examination Committee.  

   | Ordinance CvB |

3. The resit for a (partial) interim examination must not take place within ten working days of the announcement of the result of the (partial) interim examination being resat.  

   | Advice OLC; approval FGV (7.13 j) |

4. The Examination Board may allow a student an extra opportunity to sit an examination if that student:  
   a) is lacking only those credits to qualify for his or her degree;  
   b) has failed the examination during all the previously offered attempts unless participation in an examination was not possible for compelling reasons.  

   The extra opportunity can only be offered if it concerns a written examination, a paper or a take home examination. This provision excludes the practical assignments and the Master’s thesis. Requests for an additional examination opportunity must be submitted to the Examination Board no later than 1 July. If necessary, the method of examination may deviate from the provisions in the study guide.  

   | Ordinance CvB |

### Article 3.6 Marks

1. Marks are given on a scale from 1 to 10 with no more than one decimal point.  

   | Ordinance CvB |

2. The final marks are given in whole or half points.  

   | Ordinance CvB |

3. Final marks between 5 and 6 will be rounded off to whole marks: up to 5.5 rounded.  

   | Ordinance CvB |
down; from 5.5 rounded up. To pass a course, a 6 or higher is required.

| 4. | The Examination Board can allow to use symbols rather than numbers, for example; v(oldaan) [i.e. passed], g(oed) [i.e. good], n(iet)v(o)l(d)aan [i.e. not passed], etc. | Ordinance CvB |

### Article 3.7 Exemption

1. At the written request of the student, the Examination Board may exempt the student from taking one or more examination components, if the student:
   a) has passed a course component of a university or higher professional education programme that is equivalent in terms of content and level;
   b) has demonstrated through his/her work and/or professional experience that he/she has sufficient knowledge and skills with regard to the relevant course component.

2. The Master’s thesis is excluded from this exemption possibility.

### Article 3.8 Validity period for results

1. The validity period of interim examinations passed and exemption from interim examinations is unlimited, unless otherwise specified in Section B.

2. The validity period of a partial examination is limited to the academic year in which it was sat or until the end of the unit of study concerned, as stipulated for the relevant unit of study in Section B.

### Article 3.9 Right of inspection and post-examination discussion

1. For twenty working days after the announcement of the results of a written interim examination, the student can, on request, inspect his or her assessed work, the questions and assignments set in it, as well as the standards applied for marking. The place and time referred to in the previous clause will be announced at the time of the interim examination or on Canvas.

2. If a collective post-examination discussion has been organized, individual post-examination discussions will be held only if the student has attended the collective discussion or if the student was unable to attend the collective discussion through no fault of his or her own.

3. Students who meet the requirements stipulated in paragraph 1 can submit a request for an individual post-examination discussion to the relevant examiner. The discussion shall take place at a time and location to be determined by the examiner.

### 4. Academic student counselling and study progress

#### Article 4.1 Administration of study progress and academic student counselling

1. The faculty board is responsible for the correct registration of the students’ study results. After the assessment of an educational component has been registered, every student has the right to inspect the result for that component and also has a list of the results achieved at his or her disposal in VUnet.

2. Enrolled students are eligible for academic student counselling. Academic student counselling is in any case provided by:
   a. The Student General Counselling Service
   b. Student psychologists
   c. Faculty academic advisors

**Legal provision**

**Advice OLC; approval FGV**
### Article 4.2 Adaptations for students with a disability

1. A student with a disability can, at the moment of submission to VUnet, or at a later instance, submit a request to qualify for special adaptations with regard to teaching, practical training and interim examinations. These adaptations will accommodate the student’s individual disability as much as possible, but may not alter the quality or degree of difficulty of a unit of study or an examination. In all cases, the student must fulfil the exit qualifications for the study programme.

2. The request referred to in the first paragraph must be accompanied by a statement from a doctor or psychologist. If possible, an estimate should be given of the potential impact on the student’s study progress. In case of a chronic disability a single (one time) request suffices.

3. Students who have been diagnosed with dyslexia must provide a statement from a BIG, NIP or NVO registered professional who is qualified to conduct psychological evaluation.

4. The faculty board, or the responsible person on behalf of the faculty board, decides on the adaptations concerning the teaching facilities and logistics. The Examinations Board will rule on requests for adaptations with regard to examinations.

5. In the event of a positive decision in response to a request as referred to in paragraph 1, the student will make an appointment with the study adviser to discuss the details of the provisions.

6. A request for adaptations will be refused if it would place a disproportionate burden on the organization or the resources of the faculty or university were it upheld.

7. If the disability justifies an extension of the interim examination time, the Examinations Board will issue a statement testifying to this entitlement to an extension. If a disability justifies other measures to be taken, the academic adviser can take the necessary measures.

8. The decision as referred to in paragraph 5 may specify a limited validity of the special adaptations.

### 5. Hardship clause

#### Article 5.1 Hardship clause

In instances not regulated by the Teaching and Examination Regulations or in the event of demonstrable extreme unreasonableness and unfairness, the faculty board responsible for the study programme will decide, unless the matter concerned is the responsibility of the Examinations Board.

Appendix 2: Programme objective and exit qualifications

Objective of degree programme

The Research Master’s programme in Humanities is geared towards research; all components are related to societal issues and prepare the student for a career in academia (at a university or elsewhere). The final attainment levels for each track are listed below. In all cases, there are nine common final attainment levels, supplemented by one track-specific final attainment level.

Literature and Contested Spaces

A student who has successfully completed the Research Master’s programme in Humanities, with the specialization in Literature and Contested Spaces, has acquired the following knowledge and skills:

1. Outstanding knowledge of current research methods and theories within his or her own discipline within humanities. The student is aware of the structure of the discipline and the place of his or her own research within it.
2. The capacity to identify relevant links between the disciplines and to develop a personal vision of these. The student is able to participate in interdisciplinary research projects and work with researchers from other disciplines.
3. Appreciation of the international context of his or her own specialist area. The student can operate in an international environment.
4. Thorough specialist knowledge in one or more disciplines within humanities, and the ability to place this knowledge in a broader context. The student has developed an individual specialization and research focus that builds on a critical analysis of current developments within his or her own discipline and related disciplines.
5. The capacity to formulate an original research question independently and to conduct the relevant research in a critical, creative and inventive manner, thereby developing his or her knowledge within his or her own field of study. The student has demonstrated the ability to carry out a large-scale survey of literature and sources and to derive from this a ‘status questionis’, which forms the basis of his or her own historical research.
6. The capacity to report on this research, both orally and in writing, in presentations, papers and a thesis, in a manner that is deemed satisfactory and consistent with the applicable academic rules and standards. This implies that the student is sufficiently proficient in academic English and has an awareness of the relevant methodological and ethical standards.
7. Familiarity with the rules of academic practice. The student is able to reflect critically on his or her own research and that of others, taking into account the ethics and standards that prevail within the academic community.
8. The capacity to reflect on the position of the discipline within society and an awareness of current academic debates within the field. The student is able to communicate his or her own vision to both specialists and non-specialists and to participate in public discussions that include broader (extra-academic) aspects.
9. Knowledge of the financing options for postgraduate research and familiarity with the network of research institutes and organizations that make research funding available. The student is able to write a research proposal, attract funding and apply for relevant positions, both within the academic world and beyond.
10. A student who successfully completes the Literature and Contested Spaces specialization also has specialist knowledge of one or more subfields from the study of literature and culture, and
specifically of the relationship between literature and space as theorized in the ‘spatial turn’ in literary studies.

**Linguistics**
A student who has successfully completed the Research Master’s programme in Humanities, with the specialization in Linguistics, has acquired the following knowledge and skills:
1. Outstanding knowledge of current research methods and theories within his or her own discipline within humanities. The student is aware of the structure of the discipline and the place of his or her own research within it.
2. The capacity to identify relevant links between the disciplines and to develop a personal vision of these. The student is able to participate in interdisciplinary research projects and work with researchers from other disciplines.
3. Appreciation of the international context of his or her own specialist area. The student can operate in an international environment.
4. Thorough specialist knowledge in one or more disciplines within humanities, and the ability to place this knowledge in a broader context. The student has developed an individual specialization and research focus that builds on a critical analysis of current developments within his or her own discipline and related disciplines.
5. The capacity to formulate an original research question independently and to conduct the relevant research in a critical, creative and inventive manner, thereby developing his or her knowledge within his or her own field of study. The student has demonstrated the ability to carry out a large-scale survey of literature and sources and to derive from this a ‘status questionis’, which forms the basis of his or her own historical research.
6. The capacity to report on this research, both orally and in writing, in presentations, papers and a thesis, in a manner that is deemed satisfactory and consistent with the applicable academic rules and standards. This implies that the student is sufficiently proficient in academic English and has an awareness of the relevant methodological and ethical standards.
7. Familiarity with the rules of academic practice. The student is able to reflect critically on his or her own research and that of others, taking into account the ethics and standards that prevail within the academic community.
8. The capacity to reflect on the position of the discipline within society and an awareness of current academic debates within the field. The student is able to communicate his or her own vision to both specialists and non-specialists and to participate in public discussions that include broader (extra-academic) aspects.
9. Knowledge of the financing options for postgraduate research and familiarity with the network of research institutes and organizations that make research funding available. The student is able to write a research proposal, attract funding and apply for relevant positions, both within the academic world and beyond.
10. A student who successfully completes the Linguistics specialization also has specialist knowledge in the field of forensic linguistics or language technology, depending on the track completed by the student, in particular with regard to working with linguistic data, on analytical techniques and on methods and techniques for setting up, conducting and reporting on research. The student is able to use language technology software in order to solve practical and theoretical problems in the field of the track followed.

**Global History**
A student who has successfully completed the Research Master’s programme in Humanities, with the specialization Global History, has acquired the following knowledge and skills:
1. Outstanding knowledge of current research methods and theories within his or her own discipline within humanities. The student is aware of the structure of the discipline and the place of his or her own research within it.
2. The capacity to identify relevant links between the disciplines and to develop a personal vision of these. The student is able to participate in interdisciplinary research projects and work with researchers from other disciplines.
