Tuberculosis (TB) test

The Tuberculosis (TB) test is part of the visa and residence permit procedure for certain nationalities. It depends on your nationality whether you have to take the test or not. Please have a look at Appendix A to see whether you are exempted from the TB test.

A. If you have to take the test based on your nationality, then please be so kind as to complete and submit the TB Statement. Please note that you will take undergo the test upon arrival in the Netherlands. For this reason you have to submit this form as you declare that you will take the test by completing the TB statement. Please do not submit any doctor statements from your home country as the TB statement is sufficient.

B. If you are exempted from the TB test, then please be so kind as to complete and submit Appendix B.
In order to obtain a residence permit, you (or the person you represent) must be prepared to undergo a tuberculosis (TB) test and - if necessary - treatment. If you submit the completed declaration of intent to undergo a TB test to the IND together with your application (and also meet all other conditions), the IND will grant you a residence permit as soon as possible.

You are granted this permit under the express condition that you will actually undergo a TB test within three months. Should it become clear after the issue of a residence permit that - despite signing the declaration of intent - you failed to undergo a TB test within the period of three months, this may result in a cancellation of the permit that was granted.

Enclose the completed and signed declaration of intent with your application before you make an appointment with the Municipal Health Service. In doing so, you declare that you are prepared to undergo a TB test and, if necessary, TB treatment. For the appointment with the Municipal Health Service, you must complete the referral form as much as possible (part 1) and take it with you.

The obligation to undergo the test does not apply if you are a national of one of the countries listed in the appendix ‘Exemption from the obligation to undergo a tuberculosis (TB) test’. Nor does the obligation to undergo the test apply if you have an EU residence permit for long-term residents issued by another EU country or are his/her family member and were already admitted to another EU country as a family member of the long-term resident.
